

The Digital Home for Football Fans

Live Scores • Highlights • Match Information • Fan Experience

Nigeria → Africa → Global

THE PROBLEM

Football is everywhere. The fan experience is fragmented.

Football fans often move between different platforms to follow the game they love.

LIVE SCORES

One platform provides live scores.

HIGHLIGHTS

Another provides highlights.

NEWS

News exists somewhere else.

FAN COMMUNITY

Fan discussions happen across social platforms.

This creates a fragmented experience where football information, content and community are spread across multiple products.

THE RESULT

A fragmented journey for fans — and a clear opportunity for a football-first platform.

One platform. A connected football experience.

PitchSide is a football technology platform designed to bring live match information, highlights and fan experiences together in one digital home.

From following the score to experiencing the match — PitchSide brings the fan journey together.

African football is becoming a massive digital experience.

109M

Internet users in Nigeria
End of 2025.

6 BILLION

AFCON 2025 digital views
Across social platforms.

165M

Cellular mobile connections in Nigeria
End of 2025.

285 MILLION

AFCON 2025 digital engagements

THE OPPORTUNITY

Football attention is already enormous. The opportunity is to build a persistent digital product around that attention — beyond individual matches and tournaments.

Sources: DataReportal — Digital 2026: Nigeria | CAF — AFCON Morocco 2025 digital results

Built for how football fans follow the game.

LIVE SCORES

Follow matches in real time.

MATCH CENTER

Fixtures, status and match information.

HIGHLIGHTS

Discover match moments and video content.

FAN EXPERIENCE

Engagement built around the game.

Core product experience implemented; launch-critical infrastructure and sustainability remain the priority.

Starting with one of Africa's largest digital markets.

109M

Nigerian internet users
End of 2025.

EXPANSION PATH

THE STRATEGY

The strategy is to begin with a focused Nigerian audience, learn what drives engagement, then expand across African football communities and the global African diaspora.

The market is crowded. Our opportunity is differentiation.

PitchSide does not need to claim that competition does not exist. The goal is to build a focused football destination where the core fan journey can happen together.

POSITIONING

A football-first product combining information, content and community — built from Africa, for football fans everywhere.

Multiple paths to monetization.

CURRENT STATUS

Pre-revenue

Monetization follows audience growth and product-market validation.

From concept to working product.

PRODUCT STATUS

Working product

Pre-launch • Pre-revenue

CURRENT USERS

0

No active user base yet; launch is the next milestone.

CORE EXPERIENCE

Core football experience is implemented.

Live scores • Match center • Highlights • News • Live match chat • AI assistant

FOOTBALL DATA

PitchSide uses the Highlightly Football API for football data.

Highlightly provides broad football coverage, including leagues, clubs, live scores, fixtures, statistics, players and other football information.

NEXT MILESTONE

Launch a reliable, sustainable version capable of supporting users.

CAPITAL NEED

Strengthen infrastructure, API capacity and launch readiness.

The product is built. The next challenge is infrastructure, sustainability and growth.

Build the first community around football culture.

Nigeria → prove engagement → expand across African football communities

Seeking
\$10,000
in pre-seed funding.

PROPOSED USE OF FUNDS

Infrastructure & API **35%** **\$3,500**

Cloud infrastructure, backend reliability and football data/API capacity.

Product & Reliability **30%** **\$3,000**

Performance, user experience and launch-critical development.

Launch & Acquisition **20%** **\$2,000**

Initial marketing, football-community outreach and user acquisition.

Operations & Tools **15%** **\$1,500**

Essential software, services and operating expenses.

\$10,000 will help move PitchSide from a working prototype toward a sustainable product capable of supporting its first meaningful user base.

Allocation is a proposed plan and may change with operating needs.

VISION

Building the digital home for football fans.

Built from Africa. Designed for football fans everywhere.

NIGERIA → AFRICA → GLOBAL

Follow the game. Experience the moment. Be part of the community.
